

*Accurate and Fast Searches. Confidence that your Content is Secure.
Affordable Software Solutions for the Windows-Based Office*

How does your company manage all of its content?

Managing a multitude of emails, graphics, and documents for employees and business partners can appear to be an insurmountable task. *ECM Library* truly is the ultimate software for enterprise content management. Its incredible speed and wide-range of available search methods and parameters allow businesses to access documents for the most critical issues. This market-proven architecture will drastically improve and expand access to company information; changing the way you do business.

Find it with ECM Library:

If you need to find a saved document - even if you just have an "idea" on what concepts may be in it - *ECM Library* gives you fully indexed search and retrieval for:

- ***all of your emails and email enclosures***
- ***all of your business documents***
- ***and full text search for over 65 file types***

ECM Library has combined the best search engine methods available today including FREETEXT conceptual searches, Thesauri and Taxonomy searches, all with weighted search results. Simple Google-like searches, with search reduction capabilities and legal library containment make *ECM Library* the new premier in content management software available in the market today.

Trial Customers:

Upon completion of our full stress-testing of *ECM Library*, we will be ready for customer feedback. We're looking for a handful of companies who could use *ECM Library* and would like in exchange for customer feedback, receive free use of our first release product. Customers will need to have a Windows VISTA operating environment and preferably SQL 2005 or 2008 license.

Feature Highlights

- Lightning-fast search and retrieval
- Scales from the smallest office to largest corporation
